

OBJECTIVES

Our program is focused to engage communities in local ecotourism but also National and International visitors' engagement in Japanese Ecotourism, providing the relation between Environment and people's life in Japan. Through this program, participants will understand the connection between Mountain – River – Ocean, and people could recognize the entire watershed system and increase the environmental, cultural and social values in Miyako Region.

ECOCYCLING PROGRAM IN KAWAUCHI

ACTIVITY 1: "The Heart of Kawauchi"

ACTIVITY 2: "The Hei River"

ACTIVITY 3: "The Community of Kawauchi"

INTRODUCTION

This program is conducted by Tokyo University of Marine Science and Technology (Aquatic Environmental Education Laboratory), as part of our research study to create an International Ecotourism Center in Iwate.
